

## **MARS SHOWS BURGEONING BASE OF MARS ENTHUSIASTS** **HOW TO FIND HUMANOID BEING IN THE ROCK ENCLOSURE**

SEATTLE, WA (MARS) January 7, 2009 – In response to numerous inquiries that the Mars Anomaly Research Society (MARS) has received about the presence of humanoid beings in a photograph of the Red Planet taken by NASA's Mars Rover *Spirit*, MARS President Andrew D. Basiago today published precise instructions on the Internet guiding Mars enthusiasts in how to find one of the humanoid beings.

The photograph in question is PIA10214, taken in November 2007 when *Spirit* was perched on the western edge of the Home Plate Plateau in the inner basin of the Columbia Hills range inside Gusev Crater on Mars. It has been a matter of public interest since January 2008, when NASA posted the photo on the World Wide Web, only to learn later that a statue can be seen on the far left edge of the plateau.

Here are the text and images from the NASA photograph that Basiago published today with the first evidence ever released by NASA in an official photograph showing a humanoid being on another planet. The humanoid, among many that can be seen in the NASA photo, has a bulbous head and a spindly body. He is standing in a semi-circle of blue-gray rocks that Basiago has named The Rock Enclosure.

**Step 1:** To find the humanoid being in The Rock Enclosure discovered by Basiago in December 2008, first find the left solar array of *Spirit* located at the bottom of the NASA photograph (**Figure 1, below**).

**Figure 1. The Left Solar Array of *Spirit***

**Step 2:** There is a cigarette box-shaped rectangle in its upper left corner (**Figure 2, below**).

**Figure 2. The Box in the Upper Left Corner of the Left Solar Array of *Spirit***

***How to Find Humanoid Being in The Rock Enclosure, page 2***

**Step 3:** Count from that box, to the right, along the edge of the solar array facing the edge of the plateau, for a total of five solar panels (**Figure 3, below**).

**Figure 3. Five Solar Panels to the Right on the Left Solar Array of *Spirit***

**Step 4:** From the fifth solar panel on the right, proceed in a line straight *up* the photograph. On Tsiolkovski Ridge, in the middle distance, you will reach The Rock Enclosure, a cluster of blue-gray rocks that are C-shaped, with the opening of the “C” towards *Spirit* (**Figure 4, below**).

**Figure 4. The Rock Enclosure on Tsiolkovski Ridge**

**Step 5:** The rock on the left is carved with a face like the “aliens” found in the UFO literature. The rock on the right is carved with a face similar to drawings on Earth that personify the Sun (**Figure 5, below**).

**Figure 5. The Rock Enclosure on Tsiolkovski Ridge**

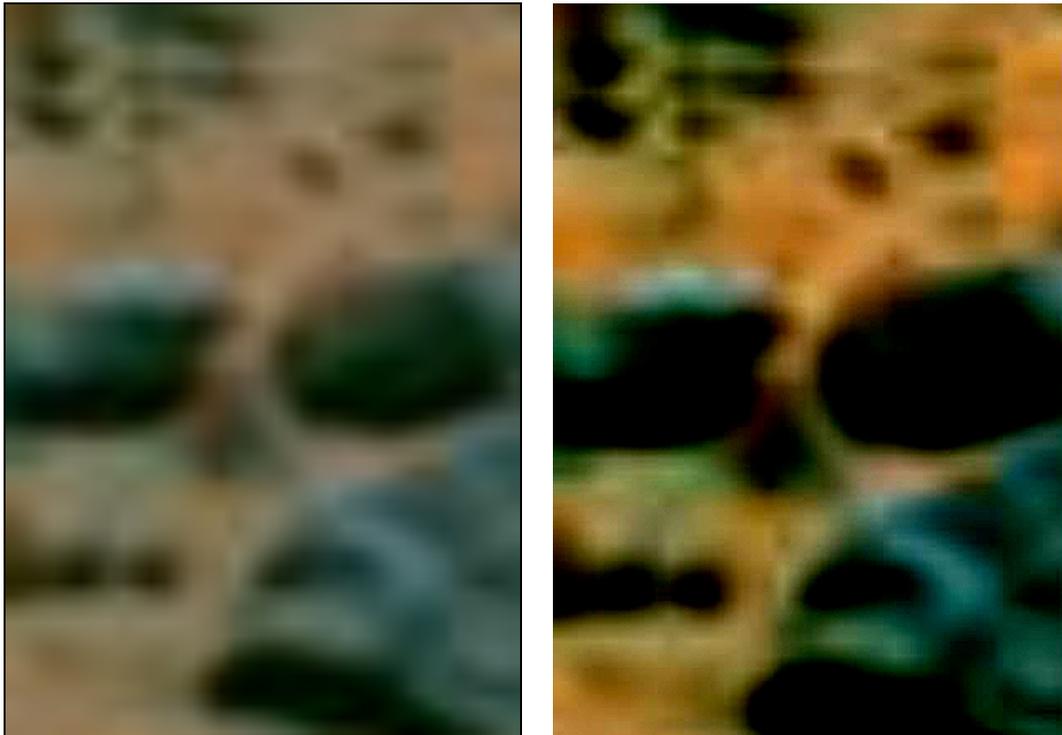

### ***How to Find Humanoid Being in The Rock Enclosure, page 3***

**Step 6:** The humanoid being is standing inside The Rock Enclosure. His back is to *Spirit*. He is standing pressed against the wall-like rock at the back of the enclosure (**Figure 6, below left**).

On some computer screens, the body of the being has been visually mistaken for an aperture between two rocks. In fact, the low, wall-like rock behind the being is one rock, and the thin, elongated body of the Martian is breaking up its continuity. The Rock Enclosure is made up of only three big rocks, not four.

**Step 7:** Computer enhancement of color and contrast (**Figure 7, below right**) indicate that this is the image of a real being captured in NASA photograph PIA10214 and not a rock or a photographic effect.

**Figures 6 and 7. The Humanoid Being in the Rock Enclosure (normal and enhanced)**

**Step 8:** Tell everybody you know the *truth*. That contact with other life forms in the Cosmos has begun. That NASA is concealing this fact. That this photograph published by NASA on the World Wide Web contains this Martian and other humanoid and animal life forms on Mars. That NASA would try to have us believe that we don't see what the plain evidence of our own eyes tells us we see. That Mars is inhabited. That some of the beings on Mars are humanoids like us. That the discovery of life on Mars is the beginning of the end for the official government policy that was put in place following the CIA's Robertson Panel of 1952, when it was decided that evidence of life beyond Earth would be held back from the public, thereby denying the people of Earth access to the true natural history of the Cosmos.
