ROCKY RUINS BETWEEN VICTORIA CRATER AND ENDEAVOUR CRATER**

**Paul Goodwin, Mars Uncensored:** In amongst the rocky ruins between Victoria Crater and Endeavour Crater, we found this individual, seemingly examining something. He's either a Martian, a Grey, or maybe he's both – a hybrid, perhaps?

**Andrew D. Basiago, Mars Anomaly Research Society:** Paul, Congratulations on a great find! The Mars cover-up has just been hit with another fusillade of evidence showing that Mars is inhabited! Andy
